

Winter stalk hunt – Capercaillie

Capercaillie Stalk

NordGuide offers an outstanding "stalk hunt" with cross-country skis in Swedish Lapland. This hunt is a challenge for every hunter – the ultimate hunt for the great black capercaillie.

During this programme our accommodation will be in forest cabins close to the hunting grounds. The cabins offer wilderness comfort with 4–6 beds. The unique environment of our hunting grounds offers a forest setting abundant in birds and vast mountain areas, a natural habitat of the great capercaillie.

Welcome!

About Swedish Lapland

Norrbottnen is the northernmost county in Sweden, with a population of 250,000 people, 160,000 reindeer and 65,000 snowmobiles spread over a quarter of Sweden's total area. We represent 2.8 % of the Swedish population which totals nine million. Norrbotten has 14 local authorities or municipalities. In area, Kiruna is the biggest and Haparanda the smallest. Luleå Municipality has the largest population - 72,000 - while Arjeplog has the smallest with just 3,000. Norrbotten contains the highest mountain in Sweden, Kebnekaise (2,111 m), as well as the deepest lake, Hornavan (226 m). Three of Sweden's four state-protected rivers run through Norrbotten: the Torne, Kalix and Pite rivers.
